

Oct 22/89

Hi Bill.

Had word from Henry Beeston when I got back that the date had been set so got busy & got a letter drafted. Went down to Air Canada & finalized a deal on reduced fares which should help out a lot. Some good prices for airfares. So good I'm going to fly & rent a car when I get there.

Have a photo that I am going to send you in the hopes you can help me out with a couple of names. In the book row left to right I think the first guy is called Redmond. If so can you recollect his first name & where from. Then the Cox art D. Hall of Toronto (we can't find him yet) then the tall blonde guy next to him. I can't remember his name at all so anything on him would be a big help. Also any help with the photos & names on the lists I sent would also be a big help.

Enclosed the brochures mentioned above. Hope you can manage to get
